

Mathematics Homework (Block A - Multiplication)

We've looked at multiplication this week, your homework task is to use this knowledge practically. Use the 2p coin or dots to help you count up. Remember 2×2 is also 2 lots of 2, and 3×2 would be 3 lots of 2.

$1 \times 2 = 2$	$7 \times 2 =$
$2 \times 2 =$	$8 \times 2 =$
$3 \times 2 =$	$9 \times 2 =$
$4 \times 2 =$	$10 \times 2 =$
$5 \times 2 =$	$11 \times 2 =$
$6 \times 2 =$	$12 \times 2 =$

Using your knowledge of times tables answer these questions:

If I have seven 2ps, how much have I got? (7×2)

If I have nine 2ps, how much have I got? (9×2)

If I have eleven 2ps, how much have I got?

If I have six 2ps, how much have I got?

If I have eight 2ps, how much have I got?

If I have 24p and want to share it between 6 people how much do they get each?

If I have 6p and want to share it between 3 people how much do they get each?

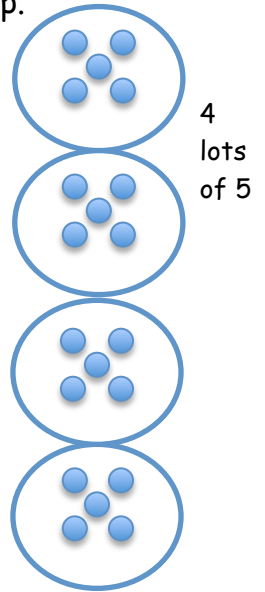

Mathematics Homework (Block A - Multiplication)

We've looked at multiplication this week, your homework task is to use this knowledge practically. Use the 5p coin or dots to help you count up. Remember 4×5 is also 4 lots of 5.

$1 \times 5 = 5$	$7 \times 5 =$
$2 \times 5 =$	$8 \times 5 =$
$3 \times 5 =$	$9 \times 5 =$
$4 \times 5 =$	$10 \times 5 =$
$5 \times 5 =$	$11 \times 5 =$
$6 \times 5 =$	$12 \times 5 =$

Using your knowledge of times tables answer these questions:

If I have seven 5ps, how much have I got? (7×5)

If I have nine 5ps, how much have I got?

If I have eleven 5ps, how much have I got?

If I have six 5ps, how much have I got?

If I have eight 5ps, how much have I got?

If I have 30p and want to share it between 6 people how much do they get each?

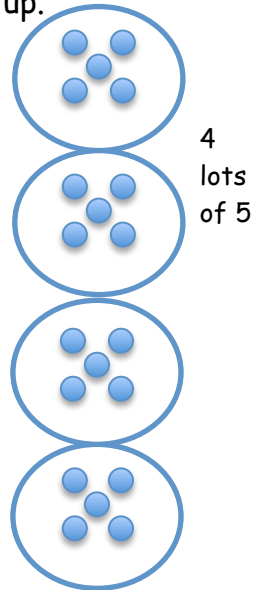

If I have 90p and want to share it between 3 people how much do they get each?

Mathematics Homework (Block A - Multiplication)

We've looked at multiplication this week; your homework task is to use this knowledge practically. Use the 50p coin or dots to help you count up. Remember 4×5 is also 4 lots of 5.

$1 \times 5 = 5$	$7 \times 5 =$
$2 \times 5 =$	$8 \times 5 =$
$3 \times 5 =$	$9 \times 5 =$
$4 \times 5 =$	$10 \times 5 =$
$5 \times 5 =$	$11 \times 5 =$
$6 \times 5 =$	$12 \times 5 =$

We looked at multiplying 0.2, 0.5 by 2, you will need to use these skills for these questions (Remember $0.5 \times 2 = 1$ and $0.5 \times 3 = 1.5$):

You can write your answer in pence (p) or pounds (£)

If I have two 50ps, how much have I got? (2×0.5)

If I have nine 50ps, how much have I got?

If I have eleven 50ps, how much have I got?

If I have six 50ps, how much have I got?

If I have eight 50ps, how much have I got?

If I have £1.5 and want to share it between 3 people how much do they get each?
